

METALLURGIA

INDEX TO VOLUME XXXI

NOVEMBER 1944 — APRIL 1945

A	Page	Page	Page
Alloy and Special Steel Bars, A Producer Gas-fired Furnace Installation for the Heat-treatment of	97-98	Cast Iron (Metallurgy of) with Special Reference to Gases in Cast Iron, Progress in Research Methods. By J. E. Hurst, D.Met.	92-97
Alloys (Copper) and Copper. By H. J. Miller, M.Sc.	83-87	Charging Electrical Steel and Other Furnaces	257-258
Alloys (Cutting), Arc Welded. By E. C. Rollason, Ph.D., M.Sc., and P. Harris, B.Sc.	3-6	Chromium-Nickel 18-8 Stainless Steel, The Surface Film on. By W. H. J. Vernon, D.Sc., F. Wormwell, Ph.D., and T.J. Nurse	19-22
Alloy Sheet and Strip, Aluminium. By E. G. West, Ph.D., B.Sc.	193-196	Coinage Metals in Antiquity—Parts II and III. By D. R. Hudson, B.Sc., Ph.D.	201-206, 249-252
Alloy Steels (Medium and High Tensile Wrought) Present and Future, Some Thoughts on. By J. H. G. Monypenny	79-82	Constructional Steels, The Utilization of Engineering. By E. Simister, B.Sc., Ph.D.	65-69
Alloys (Zinc) and Zinc. By B. D. Darrah, M.A., A.R.S.M.	87-91	Continuous Casting, Some General Aspects of. By V. Kondic, B.Sc., Ph.D.	7-9
Aluminium, A Century of	163-164	Copper and Copper Alloys. By H. J. Miller, M.Sc.	83-87
Aluminium, 100 Years of. By Freeman Horn	176-181	Copper in Aluminium Alloys, Volumetric Determination of. By G. Stanley Smith, B.Sc., A.R.I.C.	10
Aluminium Alloy Forgings and Stampings, Development of. By J. Towns Robinson	182-186	Copper Wire, The Annealing of Corrosion of Galvanized Coatings and Zinc by Waters containing Free Carbon Dioxide. By L. Kenworthy, M.Sc., A.R.C.S., and Myriam D. Smith, B.A.	13-18
Aluminium Alloy Sheet and Strip. By E. G. West, Ph.D., B.Sc.	193-196	Corrosion Inhibitors, Emulsions of Oil in Water as. By P. Hamer, L. Powell and E. W. Colbeck	291-293
Aluminium Alloys, The Gravimetric Estimation of Silicon in. By G. H. Osborn and J. Clark	230-232	Curvilinear and Plastic Ranges of Stress, Beam Design in the. By A. Fisher	241-247
Aluminium Alloys, Volumetric Determination of Copper in. By G. Stanley Smith, B.Sc., A.R.I.C.	10	Cutting Alloys, Arc Welded. By E. C. Rollason, Ph.D., M.Sc., and P. Harris, B.Sc.	3-6
Aluminium Die-casting, Progress in. By Arthur Street, Ph.D.	197-200	Cylinder Block Washing Machine	300
Aluminium Foundry, War-time. By George Mortimer. 187-192 and 196	187-192 and 196	D	
Annealing of Copper Wire	168	Defectoscope, a Photo-induction. By Prof. M. M. Slizberg	293-295
Arc Welded Cutting Alloys. By E. C. Rollason, Ph.D., M.Sc., and P. Harris, B.Sc.	3-6	Deformation of Metals. By Prof. H. W. Swift, M.A., D.Sc.(Eng.), M.I.Mech.E.	53-62
Austempering and Isothermal Transformation of Steels, with special reference to the Production of Martensite. By F. C. Thompson, D.Met., M.Sc., and L. R. Stanton, Ph.D.	141-143	Determination of Small Quantities of Nickel in Duralumin	261-262
B		Developments in the Production and Technology of Magnesium and its Alloys. By F. A. Fox, M.Sc., and G. Goddard, M.Eng.	70-74
Beam Design in the Curvilinear and Plastic Ranges of Stress. By A. Fisher	241-247	Diamond Tool Research	30
Beryllium-Copper	247-248	Duralumin, Determination of Small Quantities of Nickel in	261-262
British Steel Industry, The Future of. By Sir Alexander Dunbar	169-171	E	
Bronze (Better) for Industry	91	Electrical Steel and Other Furnaces, Charging	257-258
Building Uses for Cast Iron	52	Electric Arc, Welding Various Metal Combinations with the. By O. M. White	299-300
C		Electrode Coatings (Welding). The Identification of the Constituents of. By R. C. Vickery, Ph.D., M.Sc.	119-123
Calcium in Magnesium, The Determination of	154	Electronic Timing for X-Ray Exposures	259-260
Cast Iron, Building Uses for	52	Emulsions of Oil in Water as Corrosion Inhibitors. By P. Hamer, L. Powell and E. W. Colbeck	291-293
		F	
		Fatigue Testing Machine for Aircraft Structural Elements	222a
		Force, The Shape of a Material's Reactions to—Parts I, II. By A. C. Vivian, B.A., D.Sc., A.R.S.M.	225-229, 301-307
		Forgings and Stampings, Development of Aluminium Alloy. By J. Towns Robinson	182-186
		"Foseco" Calculator	6
		Foundry (Aluminium), The War-time. By George Mortimer	187-192 and 196
		Foundry (Steel) Practice	253-256
		Fuel-gas in the Light Alloy Industry. By H. Truman	137-140
		Furnaces, Charging Electrical Steel and Other	257-258
		Furnace (Crucible), A Power Tilting	258
		Furnace Installation (A Producer Gas-fired) for the Heat-treatment of Alloy and Special Steel Bars	97-98
		Future of the British Steel Industry. By Sir Alexander Dunbar	169-171
		G	
		Galling and Seizing	315-316
		Galvanized Coatings and Zinc, Corrosion of, by Waters containing Free Carbon Dioxide. By L. Kenworthy, M.Sc., A.R.C.S., and Myriam D. Smith, B.A.	13-18
		Gas-fired Furnace Installation (A Producer) for the Heat-treatment of Alloy and Special Steel Bars	97-98
		Gas Industry, Forty Years' Technical Progress in the	9
		Gears and Gear-cutting Machinery. Messrs. David Brown & Sons (Huddersfield), Ltd.	63
		Gravimetric Estimation of Silicon in Aluminium Alloys. By G. H. Osborn and J. Clark	230-232
		H	
		Hardness, Indentation. By G. C. Richer	296-299
		Heat-treated Steels, Influence of Tempering Temperatures upon the Strength of	237-240

	Page		Page		Page
Heat-treatment of Alloy and Special Steel Bars, A Producer Gas-fired Furnace Installation for the	97-98	Metal Combinations, Welding Various, with the Electric Arc. By O. M. White	299-300	Specification of Meehanite Metal. International Meehanite Metal Co.	91
Hydraulically - pressed Light Alloy Pistons. By Cecil Kimber	31-38	Metallurgical Progress in Tin. By John Ireland, M.C., B.Sc. Metallurgy of Cast Iron with Special Reference to Gases in Cast Iron. Progress in Research Methods in the. By J. E. Hurst, D.Met.	75-79	Speed and Loading Conditions, Influence of. Yielding Phenomenon of Metals—Parts I, II, III, IV. By Georges Welter 144-150, 207-212, 263-268, 309-315	253-256
I		Metals, Deformation of. By Prof. H. W. Swift, M.A., D.Sc.(Eng.), M.I.Mech.E.	53-62	Steel Foundry Practice	169-171
Identification of the Constituents of Welding Electrode Coatings. By R. C. Vickery, Ph.D., M.Sc. 119-123		Metals, The Yielding Phenomenon of—Parts I, II, III, IV. By Georges Welter, 144-150, 207-212, 263-268, 309-315		Steel Industry (British), The Future of. By Sir Alexander Dunbar	165-168
Illumination (Manuscript), Keltic Metal Work and. By D. R. Hudson, B.Sc., Ph.D.	283-290	Metal Work (Keltic) and Manuscript Illumination. By D. R. Hudson, B.Sc., Ph.D.	283-290	Steels, Sub-zero Treatment of. By H. C. Amtsberg	165-168
Indentation Hardness. By G. C. Richer	296-299	N		Steels, The Austempering and Isothermal Transformation of. By F. C. Thompson, D.Met., M.Sc., and L. R. Stanton, Ph.D.	141-143
Industrial Research and Development. By W. C. Devereux, F.R. Ae.S.	135-136	Nickel (Small Quantities of) in Duralumin, Determination of	261-262	Structural Industry and War	164
Influence of Tempering Temperatures upon the Strength of Heat-treated Steels. By D. W. Rudorff	237-240	Non-ferrous Industry in Canada: Increased Activity, Reduced Value of Processing	168	Sub-zero Treatment of Steels. By H. C. Amtsberg	165-168
Institute of Metals. Binary Equilibrium	236	O		Surface Film on Chromium-Nickel 18/8 Stainless Steel. By W. H. J. Vernon, D.Sc., F. Wormwell, Ph.D., and T. J. Nurse	19-22
Institute of Metals. Exploration of the Problem of Superheating in Magnesium-Bronze Alloys	236	Oil in Water (Emulsions of) as Corrosion Inhibitors. By P. Hamer, L. Powell and E. W. Colbeck	291-293	T	
Institute of Metals. Influence of Centrifugal Casting (Horizontal Axis) upon the Structure and Properties of Metals	236	P		Tempering Temperatures (Influence of) upon the Strength of Heat-treated Steels. By D. W. Rudorff	237-240
Investigation of a Case of Season Cracking. By Thomas B. Crow, Ph.D., M.Sc., F.R.I.C. 116-118		Patent Extensions and Foreign Profits. By S. T. Madeley	295	Timing (Electronic) for X-Ray Exposures	259-260
Isothermal Transformation and the Austempering of Steels. By F. C. Thompson, D.Met., M.Sc., and L. R. Stanton, Ph.D.	141-143	Photo-induction Defectoscope. By Prof. M. M. Slizberg	293-295	Tin, Metallurgical Progress in. By John Ireland, M.C., B.Sc. 75-79	
J		Pistons (Light Alloy) Hydraulically Pressed. By E. B. Graham	31-38	Town Gas for Welding	256
Jet Propulsion for Aircraft	134	Plastic Ranges of Stress, Beam Design in the Curvilinear and. By A. Fisher	241-247	U	
K		Platinum and its Production	173-175	Utilisation of Engineering Constructional Steels. By E. Simister, B.Sc., Ph.D.	63-69
Keltic Metal Work and Manuscript Illumination. By D. R. Hudson, B.Sc., Ph.D.	283-290	Power-tilting Crucible Furnace Producer Gas-fired Furnace Installation for the Heat-treatment of Alloy and Special Steel Bars	97-98	V	
L		Progress in Research Methods in the Metallurgy of Cast Iron with Special Reference to Gases in Cast Iron. By J. E. Hurst, D.Met.	92-97	Volumetric Determination of Copper in Aluminium Alloys. By G. Stanley Smith, B.Sc., A.R.I.C.	10
Light Alloy Industry, Fuel-gas in the. By H. Truman	137-140	R		Volumetric Determination of Copper in Aluminium Alloys. Erratum	134
Light Alloy Pistons, Hydraulically Pressed. By E. B. Graham	31-38	Research Methods (Progress in) in the Metallurgy of Cast Iron with Special Reference to Gases in Cast Iron. By J. E. Hurst, D.Met.	92-97	W	
Light Metals for Marine Engines. By A. J. Murphy, M.Sc.	124-128	S		Washing Machine, A Cylinder Block	300
M		Salt Spray Test. By V. M. Darsey	150	Welding-Electrode Coatings, The Identification of the Constituents of. By R. C. Vickery, Ph.D., M.Sc.	119-123
Machining Light Alloys	82	Season Cracking, An Investigation of a Case of. By Thomas B. Crow, Ph.D., M.Sc., F.R.I.C.	116-118	Welding Various Metal Combinations with the Electric Arc. By O. M. White	299-300
Magnesium and its Alloys, Developments in the Production and Technology of. By F. A. Fox, M.Sc., and G. Goddard, M.Eng.	70-74	Seizing and Galling	315-316	Wrought Alloy Steels (Medium and High Tensile), Present and Future, Some Thoughts on. By J. H. G. Monypenny	79-82
Magnesium Founding Comes of Age	316	Shape of a Material's Reactions to Force—Parts I, II. By A. C. Vivian, B.A., D.Sc., A.R.S.M. 225-229, 301-307		Wrought Light Alloys Development Association	200
Manuscript Illumination and Keltic Metal Work. By D. R. Hudson, B.Sc., Ph.D.	283-290	Silicon in Aluminium Alloys, The Gravimetric Estimation of. By G. H. Osborn and J. Clark	230-232	X	
Marine Engines, Light Metals for. By A. J. Murphy, M.Sc. 124-128				X-Ray Analysis in Industry	282
Martensite. The Austempering and Isothermal Transformation of Steels. By F. C. Thompson, D.Met., M.Sc., and L. R. Stanton, Ph.D.	141-143			X-Ray Exposures, Electronic Timing for	259-260
Medium and High Tensile Wrought Alloy Steels, Present and Future, Some Thoughts on. By J. H. G. Monypenny 79-82				Y	
				Yielding Phenomenon of Metals Parts I, II, III, IV. By Georges Welter 144-150, 207-212, 263-268, 309-315	

Page	Z	Page
91	Zinc and Galvanised Coatings, Corrosion of, by Waters containing Free Carbon Dioxide. By L. Kenworthy, M.Sc., A.R.C.S., and Myriam D. Smith, B.A.	13-18
9-315 3-256	Zinc and Zinc Alloys. By B. D. Darrah, M.A., A.R.S.M. . .	87-91

REVIEWS

9-171	1944 Book of A.S.T.M. Standards	308
5-168	Bradley's Magazine	128
	Colonial Development Plans. Design and the Designer in the Light Metal Trades	307
	Equilibrium Diagrams of the Systems Copper-Tin, Copper-Zinc and Copper-Aluminium	308
164	Mechanite Iron Castings	128
5-168	Metallography of Magnesium and its Alloys	100
	Post-war Planning and Anglo-American Economic Relations. Recommendations for Uniform Cost-estimating and Cost-finding for the Drop-forging Industry	99
9-22	Steel Plant Refractories	171-172
	Structural Engineers Compendium	307
	Talks about Export	100
240	Temperature Control	100
260	The Efficient Use of Fuel	172

CORRESPONDENCE

5-79 256	Aluminium Alloy Sheet and Strip. By C. E. Davies	229
	Deformation of Metals. By Dr. A. C. Vivian, Bedford	131-133
5-69	Deformation of Metals. By Prof. H. W. Swift	133-134
	Düren and Duralumin. Freeman Horn	130-131
	Effect of Several Different Alloying Elements on Hardenability of Steel	10
10	Hardenability of Steel, Effect of Several Different Alloying Elements on	10
134	Press-forged Pistons. By H. F. James	64, 134
	Press-forged Pistons. By E. B. Graham	129-130

MICROCHEMISTRY

123	Alkaline Earth Group, Qualitative Micro-analysis of the. By R. Belcher and F. Burton . .	42
300	Analysis of Minute Gas Bubbles Apparatus in Qualitative Micro-analysis. By R. Belcher and F. Burton	272
4-82	Apparatus in Quantitative Micro-analysis. By R. Belcher and F. Burton	319
200	Bismuth, A Spot Reaction for	320
282	Chemist and the Microscope—Part I. Inorganic Methods. By C. L. Wilson, M.Sc., Ph.D., A.R.I.C.	213-216
260	Desiccants in Micro-chemical Analysis. By Kenneth C. Barraclough, B.Sc., Assoc. Met., F.R.I.C.	269-272
315	Detection and Determination of Small Quantities of Mercury. By F. T. Beaumont, B.Sc. . .	151-154

Detection of Metals (Systematic) on the Small Scale. By Christina C. Miller, D.Sc., Ph.D.	39-42
Determination of Calcium in Magnesium	154
Dropping Mercury Electrodes—I. Notes on. By J. T. Stock . .	102-103

Gas Bubbles (Minute), the Analysis of	216
Inorganic (Qualitative) Micro-analysis without Hydrogen Sulphide—Part I. By R. Belcher and F. Burton	317-319

Mercury, The Detection and Determination of Small Quantities of. By F. T. Beaumont, B.Sc.	151-154
Metals, The Systematic Detection of, on the Small Scale. By Christina C. Miller, D.Sc., Ph.D.	39-42

Micro-analysis (Qualitative) Apparatus in. By R. Belcher and F. Burton	272
Micro-analysis (Qualitative) of the Alkaline Earth Group. By R. Belcher and F. Burton . .	42

Micro-analysis (Qualitative) Inorganic, without Hydrogen Sulphide—Part I. By R. Belcher and F. Burton	317-319
---	---------

Micro - analysis (Quantitative) Apparatus in. By R. Belcher and F. Burton	319
---	-----

Micro-Burette with Adjustable Efflux. By J. T. Stock and M. A. Fill	103-104
Micro-chemical Analysis, Desiccants in. By Kenneth C. Barraclough, B.Sc., Assoc. Met., F.R.I.C.	269-272

Micro-chemical Balance, Problems Concerning the—Part I. Installations. By C. L. Wilson, M.Sc., Ph.D., A.R.I.C.	101-102
--	---------

Micro-chemical Methods. By C. L. Wilson	320
Micro-determination of Density Microscope, The Chemist and the —Part I. Inorganic Methods. By C. L. Wilson, M.Sc., Ph.D., A.R.I.C.	213-216

Problems concerning the Micro-chemical Balance—Part I. Installations. By C. L. Wilson, M.Sc., Ph.D., A.R.I.C. . .	101-102
---	---------

Qualitative Inorganic Micro-analysis without Hydrogen Sulphide—Part I. By R. Belcher and F. Burton	317-319
--	---------

Qualitative Micro-analysis, Apparatus in. By R. Belcher and F. Burton	272
---	-----

Qualitative Micro-analysis of the Alkaline Earth Group. By R. Belcher and F. Burton	42
---	----

Quantitative Micro-analysis, Apparatus in. By R. Belcher and F. Burton	319
--	-----

Small Scale, The Systematic Detection of Metals on the. By Christina C. Miller, D.Sc., Ph.D.	39-42
Spot Reaction for Bismuth . .	320

Systematic Detection of Metals on the Small Scale. By Christina C. Miller, D.Sc., Ph.D.	39-42
---	-------

Thermo-regulator, A Simple. By J. T. Stock and M. A. Fill . .	104
---	-----

METALLURGICAL DIGESTS

Age-hardening Copper-Manganese-Nickel Alloys. By R. S. Dean, J. R. Long, T. R. Graham and C. W. Matthews	323
Aluminium Bronze Extrusions. By F. J. Miller	328

Bimetal Performance at 800° F. By P. R. Lee	155-156
---	---------

Cast Steel, Hardenability of . .	43-44
Chemical and Mechanical Properties of some of the National Emergency Steels. By W. C. Stewart and R. E. Wiley	221

Chips for Magnesium Powder Fabrication	47
--	----

Comparison of Platinum and Palladium Hydrogen - electrodes in Aqueous Solutions of Acid Potassium Phthalate. By Walter J. Hamer and S. F. Acres	324
---	-----

Copper Smelting in 1943. By E. A. Peretti	109-110
---	---------

Coreless Induction Furnaces in the Steel Foundry. By F. Harms	45-46
---	-------

Corrosion of Pipe in Oil Industry	156-157
Crep Strength, Stability of Microstructure and Oxidation Resistance of Chromium-Molybdenum and 18-8 Chromium Nickel Steels. By R. F. Miller, W. G. Benz and M. J. Day	49-50

Degassing of Light Metal Alloys by Sonic Vibrations. By W. Esmarch, T. Rommel and K. Benthner	220-221
Double Pick-up Features	46-47

Effect of As. and Bi. on the Mechanical Properties of Cu-Ni-P Alloys. By Clement Blazen, M.Sc., M.Agr.Sc., A.A.C.I.	327
---	-----

Effect of Time, Temperature and Prior Structure on the Hardenability of Alloy Steels. By J. Welchner, E. S. Rowland and J. E. Ubben	275-276
---	---------

Electro-deposition of Copper Powder. By W. H. Osborn and S. R. Tuwiner	50
--	----

Electronic Devices in Metallurgy	221-222
Emergency Heat-resistant Alloy. By O. E. Harder and J. T. Gow	111

Evaluation of Quenching Oils. By E. K. Spring, P. T. Lansdale and C. W. Alexander	222
---	-----

Factors Affecting Hardness Relationships in the Range 50-250 Brinell. By R. H. Heyer	274
--	-----

Flake and Shatter Cracks in Steels. By R. H. Harris . . .	326
Flash Chrome Plating to Size	322-323
